I used the call while Elk hunting!
I found it to work as well as the diaphragm
calls I have use. I really liked the instructional
tape on the call, and the calls all in one
features. I am looking forward to trying it
on coyotes this winter!

Thank You

The CALLS-M-ALL game call is very versatile. This
CALL Replaced a variety of calls I've used in the past, which
cut down on the amount of gear to be carried.

~~The CA~~ When used as a cow/elk call, I was able
to initiate a response from cow elk in the area. Likewise,
during Deer season, I successfully called in Bucks & Does
with the "snort" and bleat sounds.

I found the CALLS-M-ALL call to be very easy to
master with the help of the audio cassette which can be
purchased separately.

I highly recommend the CALLS-M-ALL call to all NAHC
Members who enjoy hunting a variety of game animals

The calls m. all call is exactly what it does. It comes with a tape to help you use this call. It worked as good as any other call I have used. I like the ideal of having your deer, elk, and predator call all in one. I also like the hole in the middle of the call you ^{can} keep it on your finger or thumb and still hold your rifle. Although I didn't quite master the Turkey call, I would recommend this call to all NAHC members

The Calls-M-All Game Call is a very unique
call with a rugged design ^{with lanyard}. The Call was used
on several elk hunts and produce Cow + Calf
mews effortlessly. I have never used a rubberband
call for elk before, but this product worked well
and is very productive. It came with easy instructions
and a great demo tape. I am very anxious
to try this call on Nov. Buck Hunts and
Spring turkey
