COW CALLS WORKED WELL FOR BRINGING ^{BULL} ELK IN CLOSER ONCE THEY WERE LOCATED.

CALLSMAN KEPT ^{COW} ELK INTERESTED IN THE CALL & WAS VERY EFFECTIVE. CALLSMAN

PRODUCES AN ALMOST PERFECT COW CALL. IT REALLY GOT THE BULLS LOOKING FOR A COW.

THE DEER BRUNT WORKED WHEN DEER WERE AT A DISTANCE AND HAD THEM LOOKING.

THE CALL WAS USED IN HEAVY TIMBER DURING THE PRE PUT & PUT PERIODS.

I REALLY RECOMMEND THE CALL-M-ALL GAME CALL FOR NAHC MEMBERS

I have only had a chance to test the field call on mule deer. After sneaking to within 35 yards of a small 24" buck, I decided to play with him a bit. After I decided to spook him, and while he was running away, I made the "Mew". The buck stopped dead in his tracks, turned broadside, and looked back, at about 75 yards. Again while running across the hillside below me at about 200 yards I gave another "Mew". He stopped broadside & looked. He would have been easy to shoot any of these times, had I cared to.

Having just started a late whitetail season, I look forward to trying this all in one call on them too. The instructional cassette is a definite must, and is extremely helpful in training the different sounds possible with the call.
